INTERIOR DESIGN

Be it a place of residence or a one of work, we believe in designing spaces that give the four walls an identity. We at INFID Jalgaon, hone the skills of every budding interior designer and equip them with the tools they need to breathe life into the walls

ONE YEAR CERTIFICATE PROGRAM

1 Year Foundation Program

Our One Year Foundation Program is designed to provide you with a firm foundation in design thinking and equip you with the basics of technical drawing along with exposure to various types of materials used in interiors. As a part of the INIFD curriculum, develop understanding of the materials & finishes, technical drafting, learn to design Residential Interiors.

Study Plan

Fundamentals of Design

Understand the basics of design and the fundamentals of design theory and learn to appreciate design by exploring and applying the various elements and principles of design including colour and colour theory. Also, equip yourself with the knowledge of human factors like ergonomics and anthropometry. This course will also help you understand the relation between the natural and the built environment.

Visual Communication and Presentation

Learn to come up with and communicate original ideas as you step into the life of an interior designer. This subject will also include the basics of technical drafting, illustrative sketching and presentation of work using various media.

Studio for Residential Space

This design studio introduces students to the concepts of designing residential spaces. Learn how to conceptualize design and execute it using techniques. Floor planning, defining finishes and materials for space as well as designing working and presentation drawings will be an integral part of the course.

Interior Construction and Detailing

In this subject, you will learn the importance of various types of constructional details applicable to interior spaces. The study of the various parts of a building and their role in the overall structure will form the basis of this course.

TWO YEAR ADVANCE CERTIFICATE PROGRAM

2 Year Advance Program

The Two Year course is devised to provide you with all the knowledge and information required by a professional interior designer including professional practice, budgeting and estimating quantities and cost. Along with this, you will also learn to design and handle commercial spaces such as office, retail and hospitality design. On completion of this course, you will be equipped with everything you need to work as independent interior designers capable of handling all kinds of residential and commercial spaces.

Study Plan

Evolution of Interior Design

With an aim to inculcate awareness and appreciation for the evolution of interior design and furniture, their growth and development through the ages, this theory-based course would focus on the various components that you would study and apply in your creative efforts.

Studio for Work Space

This subject focuses on planning and designing of a working or an office space. You will learn the fundamentals of the various types of the working environment and how to design a functional and aesthetically appealing workspace.

Studio for Retail and Store

Retail designing is one of the most sought after skills required for an interior designer working in the commercial space design. In this subject, you will learn retail psychology and how design influences the process of marketing and branding.

Studio for Cafe and Restaurant

This subject is designed to expose you to the field of hospitality design which includes cafes and restaurants among others. You will learn to create an environment for various kinds of hospitality spaces such as themed restaurants, QSR (quick service restaurants) and cafeterias.

Business of Interior Design

It is very important for an interior designer to have an understanding of how to run a business and marketing his/her skills. In this subject, you will also learn how to prepare estimates and write specifications for a design project.
